

The Award Winning

DIRT DEVIL DIGEST

From Around The Corner And Up Your Trail

CPR & First-Aid
 By: Brian "Safety Dude"
 Pawlak

This month I will depart from my usual style of light humor related to safety to speak about First Aid and CPR. I have had First Aid and CPR training at different times over the years.

- First Aid in 7th Grade— 27 years ago.
- First Aid and an introduction to CPR during SCUBA lessons – 20 years ago.
- First Aid and detailed infant CPR after our son was born 5 weeks early – 8 years ago.
- First Aid training at work – 5 years ago.

Much of the most often used First Aid seems like common sense; wash a minor wound, direct pressure on a minor cut, and running cool water over a minor burn. Generally, the details of the less common First Aid techniques are forgotten or become blurred in your mind.

Recently I needed to perform CPR at my home. (It was a family friend, not a family mem-

ber.) Sadly, all did not turn out for the best. Because of this event I have decided to take First Aid and CPR classes more often and periodically review the information. This will keep me up on new information and will keep the knowledge fresh in my mind.

As a club we have tried to set up classes, yet scheduling a large group and each individual's available funds don't always coincide. We all know the knowledge of First Aid and CPR is priceless. But, the immediate needs of our families may sometimes outweigh preparedness for the unexpected.

I suggest you do as I am and take a class when you can. To find a class on First Aid or CPR near you, look in the phone book under the American Red Cross or the American Heart Association, or visit

www.redcross.org
 or
www.americanheart.org.

Be Safe!
 See you on the trail.

Prospective From The Freshman - High Desert Pre-Run
 By: Kenneth Farmer.

Let me first start out by saying that the Dirt Devils put my truck and myself through the paces, like nobody else has before. Truth be told, I had a wonderful time.

Being a newcomer to a Dirt Devil event, I didn't know what to expect. So with great trepidation, my wife, my two dogs and I drove out to the now defunct restaurant named Tiffanys, at the 15 and the 138. This is the meeting place for where the Dirt Devils await Quinn and his accomplice Mike. My entourage and I patiently waited for the trail leaders, killing time by chatting with the Devil members.

My two Labs were barking a request for a bathroom break, so I walked them into an open area where they searched for a discarded washing machine tub to relieve themselves onto. With this chore out of the way, the

... Continued on Page 2

... Continued from Page 1
 dogs and I wandered back to the truck and once more, continued our wait. Well it wasn't much later when Quinn and Mike showed up to every-one's approval.

Now we are on our way to my first Dirt Devil event. I can feel the excitement in the air as my hopelessly over-gear Toyota, screams its guts out as we climb over the Cahonies pass. Once over the top, it's all down hill till we exit the freeway at our trail, to air down. We are still miles from the Slash X Café, and there are small mountains between us.

After airing down, the club motored down the dry and dusty trail in single file. This simple trail drive went almost flawlessly except for a jackknifed Jeep, its tow vehicle, and an intermittently overheating Landcruiser. With these delays behind us, (for now) we continued on our dusty way. After a half inch of dust buildup on my windshield, I could finally see our destination, The Slash X Café. All this and the trail drive hasn't yet begun.

Now the entire group is together and who is going on which run is being decided. With these decisions out of the way, we are off

and running. Out front leading the pack is Quinn and Mike. With great expertise, we are led up a dry wash that looks easy and not challenging whatsoever, things will soon change.

The first obstacle was actually one we put together that would separate the lesser capable trucks. A few carefully placed rocks and the little boys can't play with the big boys. My Toyota made it over this obstacle with no problem. I am wondering why this trail isn't named THE GENTLE JAUNT. It didn't take long before I was easing my truck over a large group of rocks and boulders, carefully guided by experienced trail guides. I know these guys are experienced because by the time I conquered this section, my truck had only one flat tire. Oh well. It looks like this was a perfect excuse for a lunch break, after we changed my tire.

With lunch out of the way, the pre-run continued. My concerns about the trail difficulty were not diminished by Quinn telling me that things were not going to get better. Nonetheless, I forged on. Now with no spare tire, the by-passes became instantly enticing. Envy is what I felt, as the other trucks went

over the difficult sections that I would not go over.

One of these days, there will be lockers on my rig and little will stop me then. Even without lockers, the truck worked well on this trail. With the years of off-road experience attained in my past, there would be little to surprise me, or so one would think. The loose steep hill climbs that greeted us were not for the faint of heart. We journeyed onward one section of trail after another.

Finally, our group was on the top of the hill. I felt as if we had put the worst behind us until, steep, unforgiving downhills came into sight. "Light on the brakes" echoed in my head, as we eased on down the loose hills. When we hit the bottom of the hill, I caught my breath and calmed down my easily excited Labs.

Once the occupants in my Toyota were at ease, the trek continued. The rest of the trail we drove was fun, but not anally puckering as was earlier on the pre-run. We still enjoyed the remainder of Devils trail, which was almost completed at this point. A little later, our group closed in on the camp. It had been a long, tiring, and fun day. Thoughts of dinner came

to mind as we sat around the campfire and talked with our new friends, the members of the Dirt Devils. 

Message from the Prez...

THANKS!

This will be a fun and good year. I hope to see most of you at Kids On Public Lands this July 8th and 9th. We can still take people all the way up to the event. Also, the run at Onyx Summit is the 24th, hope to see people there...

I am really glad we were able to make a finale resolution on the incorporation of the club. Now we just have to finalize all the info with the lawyer and this should be done within the next two months.

The business card with the new phone number should be ready for us by the next meeting. Currently the phone messages will be coming to me at my home and work. So go ahead and refer anybody who needs additional information about the club to call 714-607-0437.

We still need somebody to help coordinate the three people a month for the Don-A-Vee runs. All this person needs to do is

... Continued on Page 4

About the Dirt Devils

The Dirt Devils of Southern California is a family-oriented group of four-wheelers dedicated to promoting safe off-highway adventures in the great outdoors. Our emphasis is on safety and we support the *Tread Lightly!* Program.

The Dirt Devils originated in October of 1993 as the result of four-wheel drive training courses where some enthusiasts wished to continue the sport of four wheeling. We are an energetic club willing to pass on what we have learned, and help each other over the tight spots. Membership is open to people over 18 years of age with any type of experience and any type of four-wheel drive vehicle. Interested future members must attend two club meetings and two club runs to be eligible for membership. Several of our members have 10 or more years of experience, creating confidence in newcomers and experienced four-wheelers alike!

We are involved in programs such as the OHV Forest Service Volunteer Program, California Association of Four Wheel Drive Clubs events, Toys-For-Tots (at Christmas time), Kids On Public Lands, environmental projects to protect the natural setting of our public lands, and the Adopt-A-Trail program. We have adopted the 3N34 trail in Lake Arrowhead, commonly known as "Dishpan Springs" or "Deep Creek Trail".

We have one or more club-sponsored event each month and take on all types of terrain, from mild to wild. Guests are always welcome to attend our meetings and runs!

What About the Meetings?

The Dirt Devils meet the first Tuesday of each month at 7:00 p.m., except holidays.

Meeting location:

Don-A-Vee Jeep

777 West Orangethorpe Avenue

Placentia, CA 92870

Margie's Recipe

Corner For June----

Here's What's Cookin'

I surely hope you have all enjoyed my recipes. It's always fun to share with other's, however, this will be the last of my recipes from the "Recipe Corner". I have saved these two "special" recipes for last...Enjoy!

"Elephant Stew"

**1 Medium sized elephant
2 Rabbits, optional
Salt & pepper to taste**

Cut the elephant into small, bite size pieces. Add enough brown gravy to cover. Cook over kerosene fire about 4 weeks at 465 degrees. This will serve 3,800 people. If more are expected, two rabbits may be added, but do this only in emergency as most people do not like "hare" in their stew.

"Turkey Dressing"

**1 Cup uncooked rice
1 Cup chopped onion
1 Cup chopped celery
1 Egg
1 Cup popcorn**

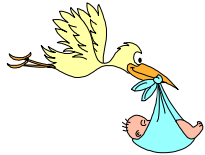

Mix well and stuff turkey. When turkey is done, the popcorn will blow the ass off the turkey...

Enjoy and Happy Eating!

PS. These are my two favorite recipes to use when I receive a "chain letter" from a recipe club.

... Continued from Page 2
 attain 3 people a month for at least three months in advance.

Thanks again... and hope to see you at the next run or meeting!

CONGRATULATIONS TO Jorge and Aimee Lopez on the arrival of their son Carlos Lopez.

High Desert Roundup
 By: Travis Shrock

What can I say about High Desert Round-up (HDR) except WOW! What an exciting weekend.

Friday night was supposed to be a regular night run for the Dirt Devils. We somehow got all mixed up and scattered as we headed for the highway to harass the people stuck in traffic by driving faster off road than they were on the freeway. There we were just flying around bushes and rabbits and kicking up a lot of dust and having a great time. We stopped and regrouped but when we took off again, Tim (Bunjee) bottomed out his

FJ40 on a dip and exploded one of his rear U-joints. I guess the joke was on us.

Tim was able to Band-Aid it together enough to get back to camp in front wheel drive. We heard later that we caused enough spectacle near the high-

way to cause a huge backup from spectators. One guy stuck in it recognized Mike's yellow Cherokee and told him the next day. Saturday's run, led by Jesse, was slated to be an easy "green" run. We actually suffered as much breakage as any other run that day. The first big hill saw a Wrangler snap a front u-joint. They were close to the front of the 21 vehicle group and had the spare parts, tools and trail repair know-how to fix it in time to take the go-around and meet us on the backside of the hill and get back in line. Congratulations to those guys on a fix-it job well done.

The second big hill right before lunch was a loose, rutted series of "teeter totters" that caused numerous problems for several people. Another Wrangler suffered a broken front axle shaft and had to head back to camp.

We had lunch in the shade of a single piece of

got to drive in the games for the first time. We really had a lot of fun watching her push that Grand around the potato race track to take a second place trophy. Several other Dirt Devils did very well in the games.

scrub brush the size of a walnut. (It was hot) After lunch we were off thru the washes, up and down, up and down. Toward the end of the run several people's vehicles were running hot and they turned back to camp. We got a little mixed up because several vehicles in the middle of the group turned back and the people in back lost sight of the leaders. The tail missed the last hill climb, but we all got regrouped and headed back to camp.

The other thing happened on Saturday is that I nearly got bit by a rattlesnake. This snake was a little over 2 feet long with about 6 rattles. He was underneath my Jeep and scared me silly when I went to get something from my Jeep. I remember yelling "get back", to my wife, at the top of my lungs about 3 times. Pete and I chased it away from camp and eventually it went away. I hate snakes!

Sunday was fun! Lisa

Jesse and Dan took first place in the potato race, Allison and Sara took sec-

ond for short wheel base in the same race. Kory took

first on the Ramp travel event.

If I've forgotten someone I apologize. I am writing this from memory and I have slept since then.

We look forward to next year and Lisa is planning her strategies for the potato race so she can get another trophy!

The raffle this month turned out Great and there seemed to be a lot of items that everyone liked. Following is a photograph taken by Dan McCarthy showing the raffle items.

I would like to start by apologizing for the newsletter being so late. My only excuse is that it is my first time doing the Dirt Devil newsletter and I have never used Page-maker before.

I will need all stories and photos by the Sunday following the Dirt Devil meetings. My phone number is (661) 799-9768 and my email is as follows: tgs2000@pacbell.net.

Travis and I are planning on coming to as many club meetings as we possibly can. Sometimes we will be unable come due to his work schedule.

Our home address is in the Member Roster and you can also mail us stories or photos to be put in the newsletter. We have a scanner so photos are no problem.

Dan McCarthy took some pictures at the June 6th meeting, and I would like to put some of them in the newsletter. I am not sure exactly

where to put them, so I figured I would put them in the Editor's Corner.

Run Dude

MEETING MINUTES!

Welcome – Quinn

Welcome to the June meeting.

Travis announced the need for more help on the Don-a-Vee runs. Lisa and Travis have made a lot of phone calls and have received some stuff from Don-a-Vee for the raffle. They will be contributing to the raffle again.

Quinn thanked Mike Maneth and Beth for bringing items for the party.

Secretary – Cheryl

No report

Membership – Jesse

Two visitors – Hector Veigas, heard about from Mike. He has a red '88 XJ. Juan Trevino from Gadzooks – will have something for the run area.

Vice President – Gary

No report

Treasurer – Robert

1,554.76	Beg. Bal.
608.00	Deposits
	Dues
398.95	Withdrawals

Flowers for Lance and Krista, replenished John's, & Travis/Lisa's plug kit, Krista's memorial

1,763.81 End. Bal.
Thanks to everyone who paid their dues last month.

Adopt-a-Trail – Dean

No report

Run Dude – Dean for Kory

**Past runs:
High Desert Pre-run.**

Thanks to everyone who showed up. Got a late start – Mike had to take his family to the pre-run, had a flat tire on the Devil's Loop, and had to be strapped.

High Desert

Mike led 52 people down the wrong trail. Dean helped find the right trail, they were able to cover it up until Jesse asked why they were coming back towards the camp over the CB. Mike hit a rock with his driveline. At the first obstacle, a Range Rover couldn't get over and went back to the Blue Moon. At the Squeeze, Mike messed up his drive line some more. Dean then took over. Had a TJ that lost an oil pan, and a Bronco that lost a drive shaft. Corey took Mike into Barstow and got back to Stoddard

Wells Road by 1:00. Dean then went a few other places.

Went over Thumbs Up Trail. Had someone who decided to go up, started up, and the front end started going up, almost went over. Strapped him so that it wouldn't roll, backed it down, then he started up again. Went back to camp about 2:30.

Next day did a little run and found some good stuff. Went up a rocky wash.

Won quite a few trophies. Jesse got 1st place on Long Wheel Base Potato Race, Lisa 2nd on Long Wheel Base Potato Race, Kory got 1st on articulation. Dan Delp won the big winch, Juan Trevino also won a winch.

Arizona – Gary

Had four go, Walt, Mike M, John, and Gary. Took a shortcut that added about an hour and a half. Made it into Prescott about 7:30. The group that was leading them, "No club club", was really friendly. Trail was really nice. Had some trees, nice history, mines, cemetery.

Trail head started in a dry stream. Had to pull a couple of people up some hills. At one point the four broke away from the group and went to an old mining town. Had dinner there then went back to Prescott around 5:00. Came home on Sunday, the normal way, and it was an hour less than the way there.

**Future Runs:
Kennedy Meadows – Robert**

Lee was supposed to pre-run last week, but ended up in the hospital from a snake bite. Every year he gets a Gardner Snake, takes it home for the year, then brings it back the next year. When he went to get his Gardner Snake, it got him. On the way home, someone rear-ended his tent trailer, so it's now in the body shop. Lee still plans on going this weekend.

Robert is leaving Friday night, Walt and John are leaving Friday morning. Lee will also leave Friday morning. For night, will meet at Tiffany's at 7:30. Robert plans on staying at Troy Meadows, Lee plans on staying at the lower campground, which has more things for kids. Can camp for free unless you go into the campground, which is \$5.

... Continued on Page 7

... Continued from Page 6

Onyx Summit – Gary

Meet at 8:00 at the Denny's at Orangeshow road. If want you to eat breakfast, show up sooner.

The July meeting will be on the 11th.

KOPL

Cheryl needs to know everyone who will be participating. Will be using the YMCA this year. Will be driving 40 kids, plus teachers, nurses, etc.

Motion given and accepted to donate \$100.

Pismo

Everyone wanting camp for Pismo, must have reservations. Contact Kory for information. Dan also knows of a campground in another area, contact him for information.

Safety

Travis almost got bit by a snake that was coiled up under his Jeep, goes along with Lee's story. Don't forget when in the desert that snakes are there. In the cook tent, they found a Sidewinder snake.

Don-a-Vee run

Next run will be June 17. Last run had Travis/Lisa, Larry/Margie, and Larry. Had 3 Cherokees, rest were TJ's. Ran the Willow

Creek Jeep Trail, now added Pilot Rock at the beginning, with some by-passes to make it more fun. No one got stuck too bad, had one person who high-centered, another that slid off a rut.

Trail has the ability to be easy to hard depending on how you approach the obstacles.

Need more Dirt Devils to help. Lisa/Travis would like to be more in the center and have someone more in the front.

After June, next will be July 29, then August 26.

Meet at McDonalds at the 138/15. Leaving at 8:30.

Going to try to keep the runs consistent, but they will be scheduled around Dirt Devil events. Any other questions, contact Lisa/Travis or the club president. Bellflower Don-a-Vee will now be sponsoring the raffle. Don't know exactly what the plan is, but they are committed to helping out.

Big Bear Bash

Juan from Gadzooks donated a free registration to the Big Bear bash in August. Gadzooks will be giving an open invitation to the Dirt Devils to join in.

OTHER BUSINESS:

Incorporation

Cost from lawyer that Mike knows is \$2000. Lance wondered what the purpose was for. Quinn explained that incorporation protects the members of the club. Incorporation protects if someone sues the club, they don't sue the members.

Travis asked about the insurance policy. The feeling is that is asking someone to sue, plus it's an on-going expense.

All in favor – 32

Opposed – 0

Mike will contact the lawyer.

Business Cards

Lisa brought two samples of business cards.

Place through MSN Network and one of the paging companies that offers voice mail messaging. If it's a local number, can

have a one minute message, if it's a 800 number, the message limit is 30 seconds. Once the message is left, it can be forwarded to a place of choice, including emails. Has a one-time set-up fee of \$25.

The business card has email address and Internet address. This would allow anyone who doesn't have Internet access, or if it's down, they would still be able to get ahold of someone.

Vote for phone – 14 for, 11 against. Decided to make the phone local with a 714 area code. Motion given, and carried. Plan to have cards ready by next meeting.

Cal-4-Wheel dues

John asked when Cal-4-Wheel dues are due. They are due tonight. Robert needs the money so he can send it in by the next couple of days. Dues are \$40.

Club Photo Contests

Dan McCarthy asked if everyone wants to do a photo contest again. Contest will take place in August. Must be a Dirt Devil's Event.

... Continued on Page 8

... Continued from Page 7

Election Results

Surprise!! Jesse won President. Every ballot said Jesse, but one said "If I have to".

61 ballots went out, received 44. 28 done at the meeting, 16 received in the mail. Next year, we're not going to stamp the ballots, there's about \$16 of postage that was wasted.

Vice President was very close. Jules pulled ahead by a few votes at the last minute. Next Dirt Devil event Jules has to bring ice cream.

Secretary - Cheryl won again.

Treasurer - between Gary and Lance. Went to Gary.

Thanks to everyone that has held an office. Done alot the last year. Now turn over to Jesse.

Quinn also thanked everyone who helped with the house.

Officer's Meeting

Will be decided at a later date giving Jesse time to decide on committee offices.

Jesse - thanks for voting in. Hopefully can recruit some of the same people for the officers. Want to have a Don-a-Vee liason to work with Travis and Lisa.

Corey agreed to be run dude. Mike Y agreed to do

membership. Dean will do Adopt-a-Trail, Walt accessories, Lisa newsletter, Heather website.

Lisa needs the newsletter stuff by Sunday. Can email, give it at the meeting.

Jesse will call the committee members for meeting time.

Tom asked Jesse, as president, what is his overall goal for the club. Jules will come up with a new mission statement.

Corey mentioned that it would be good to attend the Cal-4-Wheel run. Panamint, Fun in the Desert.

Work on slow-steady growth. Lance asked about location, can discuss it some more. Heather asked about moving to Bellflower's Don-a-Vee, Lisa thought it was possible, but several members feel it's too far.

Raffle

Next Month
Lisa/Travis - \$75 (motion accepted and carried)

Proceeds from raffle - \$170

Don A Vee Run report for May 20, 2000
By: Travis Shrock

There are not many things that are more enjoyable than to watch people experience the fun and exciting rush of accomplishment that comes

with going offroading for the first time.

Lisa and I had another successful Don-A-Vee run on Saturday, May 20th. We could not have done it without help from Larry and Margie and Larry (Flash) Leshner. Our first official run as "Trail Boss" was an interesting one as usual.

The morning was easy on Pilot Rock road, none

of the nine guests or Dirt Devils had any difficulty. I was the only one who had a problem. I was goofing around in two wheel drive, jabbering on the CB while going up this really short bypass. I was going too slow and started spinning in the loose dirt, even after shifting into four wheel drive, I still had to back up and get my wheels out of the holes I just dug. Kinda' embarassing for a trail leader!

After a quick stop at Pinacles, we attacked Willow Creek Jeep Trail. This trail is rated 'moderate' and is easy if you take the right

... Continued on Page 9

... Continued from Page 8

tracks, but who takes the easy line? We always tell the guests in the morning to find the ruts and dips and drive into them but on Willow the strategy changes.

The ruts on this trail are more than big enough to intimidate the people who haven't done this before. We lead the group over one long rut that is on an arc. This means you have to turn as you straddle the rut, not too mention that it is wider in the middle, making it a double tuff obstacle. You have to pay attention in keeping your tires on the high sides or watch out! We have had a couple of vehicles get stuck here before and Saturday was no exception.

One young lady, on her first trip did what we all have done, after getting through the worst of it, she let down her guard and relaxed a little bit. I believe she thought she may have been all the way through. She veered a little

bit to the right and slid the back end down in the rut and high centered on the

rear diff. When the wheels started spinning, the front end slid to the right and kerplunk! Out comes the strap! She was smiling the whole time!

Lunch was at our usual spot, by the creek on 3n34. After lunch, the real challenges waited for us. 2n27Y, 2n28Y and 2n29Y were the most exciting and invigorating part of the day.

We had a great group of guests and everyone got up the rutted hills very well. I only had to help a couple of people. The TJ's had the most trouble on the hills, while the Quadra Drive system on the new Grand Jerokees worked beautifully.

By about 2:30 everyone really seemed to be enjoying the georgous day and were really impressed at what their Jeeps were doing. Then we continued on to the last leg, 2n29Y, the only black diamond part of the trail. It is an easy trail compared to a lot of other black diamond trails, but for a bone stock, three week old Grand Cherokee or TJ, it is pretty tough and intimidating.

The very first part of the trail has a potential roll over spot or at the very least a huge rocker panel smasher. If you take the outside line the driver side

front has to fall in this huge hole as you are turning downhill. This creates

a spectacular tripod and tippy situation.

After careful examination of the terrain, we decided to take a more direct approach, drive over the rocker panel eating rock instead of around it, kind of like a v-notch. It worked beautifully, everyone was great, they drove carefully and listened to my instructions and did a great job (no dents!). After that it was smooth sailing until a red TJ misjudged the angle and traction of a rutted side hill and slid off the peaks right into the teeth of a big rut. Out comes the strap! He was in the same predicament as the other TJ earlier. He was high centered on both front and rear differentials. We had to pull him back about five feet and he still had to back up about 10 feet to get out of the rut. Once again, he was smiling the whole time.

I believe that everyone

had a great time and learned a lot about their vehicles and themselves. Conquering trails like these for the first time, especially in a new stock vehicle, is something to be proud of!

We look forward to June 17th, when we get to do it again. Hopefully you will be there too!

Onyx Summit - June 24th & 25th

For anyone planning on attending the Onyx Summit run this Saturday, June 24th. We will be meeting at the Denny's on Orangeshow Road at 8:00 AM. If you want to eat breakfast, you need to show up sooner.

If you are planning on camping, please contact David Elliott at (714) 666-0357. David's brother will be letting the Dirt Devils camp in his backyard.

If you have any questions about the run, please contact Gary Karp at (909) 468-5640.
